

# **EP199**

## **FUNCTIONAL FERMENTED PROTEIN**

DATASHEET

Version: 18-05-2021

EP199 is a complementary feed produced from rapeseed meal and seeweed fermented with lactic acid bacteria. EP199 contains fermentation metabolites including lactic acid, and contains gut flora stabilizing lactic acid bacteria. The fermentation process ensures a high digestibility of the product and makes the product very suitable for maintaining a healthy and functional gut.

EP199 - is a fermented complementary feed composed out of plant raw materials. The figures are based on analyses representing an average. Some variance in physico-chemical composition may occur.

Appearance:

A meal of a color from light brown to dark brown and with a

pleasant flavor of fermentation

Package size:

Big bags (1000kg) and bags (40kg)

Storage & Shelf life: 12 months from production date when stored at 20°C or below.

Shelf life will be shorter if stored at a higher temperature.

# Instructions for use\*:

	Period	EP199
PIGS		
	gilts	4%
Sows	gestation	4-6%
	lactation	9%
CATTLE		
Dairy cows		200g/head/day
Calves		100g/head/day
POULTRY		
Laying hens	Until 16 weeks	3%
	Laying period	4-5%
Turkeys	Until 16 weeks	4-5%

<sup>\*</sup> Percent of dry feed.

The product contains 6% lactic acid. Remember to optimize and reduce added acidifiers.
